

DON'T LET YOUR BUSINESS GET PUT OUT TO PASTURE.

It's a pivotal time for the equine industry. We need to create innovative ideas and strategies now, if we are to ensure our continued success in the future. At the 2008 Kentucky International Equine Summit, more than 90 of the nation's foremost equine leaders, both in business and research, will get together for this very purpose. If horses are your livelihood, you need to be there too.
